# Practice Makes PERFECT

Education of Health Professionals in  
Community, Clinical and Simulated Settings.

International Conference 2007  
Vancouver, British Columbia, Canada

***The first international conference for clinical educators and others in health care and education with responsibility for design, management, organization, and delivery of experiential and practice based learning for health professionals.***

***International Panels  
Interactive Sessions  
Practical Strategies and Tools  
Networking***

#### CONFERENCE DESCRIPTION:

Supplying the health care system with required health service providers, who have appropriate knowledge, skills, abilities, and attitudes, is an educational challenge in countries around the world. To meet this challenge, strong partnerships are needed between employers and educators.

The conference theme, "Practice Makes Perfect" acknowledges the importance and unique contribution of practical experience. The theme also calls for "sharing of best practices" in providing adequate and appropriate learning experiences for the practice component of health provider education programs.

***For information on the call for papers, agenda or registration, please visit our website at:

#### CONFERENCE THEMES:

- Practice Simulation
- Pedagogical Strategies for Practice Education
- Interprofessional Education Strategies
- Student Placement Logistics and Management
- Building Practice Education Cultures and Capacity
- Preceptor Development and Support
- Enhancing Partnerships

The British Columbia Academic Health Council (BCAHC) serves as a major strategic health workforce development and education forum for effective collaboration, partnership and leadership by senior leaders in health care and education in British Columbia. Related Provincial Government Ministries, all institutions involved in education and training of health care providers, as well as all major health care delivery organizations in BC are members of BCAHC.
